WEBSITE DESIGN

Website Design for Social Media Marketing Company

The website for a social media marketing company features a header with the company's name and a navigation bar. Below the header is a main banner with a team photo and promotional text. The page is divided into several sections: 'Services That You Need To Make Your Business Grow' (listing Social Media Management, PPC Management, Email and SMM Marketing, Short Video Advertising, and Short Video Advertising), 'WHO WE ARE' (mentioning 12 years of experience), and 'Social Media Tasks For Your Business' (listing tasks like Content Creation, Marketing Strategy, and Social Media Monitoring). The right side includes a sidebar with client logos and reviews.

The Homeless Dog Shelter Mobile App Promotional Landing Page

This promotional landing page for the THDS mobile app features a large orange header with the app's logo and a call-to-action button. Below the header is a section titled 'Amazing Services & Features For You' with four cards: Adoption, Messaging, News Section, and In App Adoption Form. To the right is a testimonial section with five star ratings and a quote from a user named Sharon De Leon. Further down is a 'THDS User Type' section showing icons for Registered User and Admin. The bottom half of the page is dedicated to the admin dashboard, showing a calendar of scheduled shelter visits, a list of adoptable dogs, and a mailing list sign-up form.

UI for The Homeless Dog Shelter (THDS) Admin Page

The mobile application for the THDS shelter features a clean design with orange and white colors. The splash screen shows the shelter's logo. The login page has a background image of several dogs and includes fields for email and password, and links for forgot password and sign up. The register page has fields for first name, middle name, last name, house number, street, barangay, city, age, and email address.

Landing Page Design about Data Intelligence

This landing page for a data intelligence service features a large graphic of a brain with circuitry. The page is divided into several sections: 'WHAT IS DATA INTELLIGENCE?' (explaining it as the use of data to make better decisions), 'DIFFERENCE BETWEEN DATA, LOCATION AND INTELLIGENCE' (clarifying the distinction between data, location, and intelligence), 'LOCATION INTELLIGENCE' (describing it as extracting insights from spatial data), 'WHAT IS LOCATION INTELLIGENCE?' (explaining it as the process of extracting insights from spatial data), 'HEALTHCARE' (mentioning how data intelligence drives better treatment outcomes), 'E-COMMERCE' (mentioning how data intelligence enables personalized product recommendations), and 'TRAVEL' (mentioning how data intelligence helps forecast travel trends).
